

Our Circus World

Daniel Laubacher

VERSE 1

Up, rise and shine here's a bite to eat.
Train till you drop now a one two three.
We're on today and they want to see
our circus world the life that we live.

REFRAIN 1

Though we're working day and night this world is all we know.
Don't get used to where we are 'cause now we have to go.
If you fall in love you'll have to put your heart on hold.
But feeling sad is not as bad as love from hot to cold.

VERSE 2

Fold up the chairs, put the tents away,
Pack up your bags soon we're on our way.
Hook up the caravan and close this day of our
circus world, the life that we live.

REFRAIN 2

There's no time to take a break.
Even when your muscles ache.
Sometimes I'd like to have my own little place,
But then I'd have to wash my dirty little face.
