

Christmas in Santa's Village

Daniel Laubacher (AKM)

VERSE 1

Christmas time, somewhere in the North Pole,
full of lights and snow flakes a fallin'.
In the streets people are dancing
children prancing through the presents
all around the Christmas tree.

VERSE 2

Church bells ring early in the morning.
No one sleeps there's too much excitement.
In the night Santa's been working,
gently lurking down the chimneys
pulling on his bag of gifts.

REFRAIN

Christmas in Santa's Village see and you'll believe.
Every year at Christmas a winter wonderland!
Come join all are welcome joy is in the air.
Sing the songs of Christmas sounding everywhere

BRIDGE

Who's the one who brings the toys to girls and boys?
And who's the one who should get applause?
It's Santa Claus.

VERSE 3

No one knows how Santa does his magic,
How he goes so far and so wide.
Can he stop the world from turning,
Slowing down the clock to
take more time to finish up the task?

REFRAIN

Christmas in Santa's Village see and you'll believe.
Every year at Christmas a winter wonderland.
Come join all are welcome, joy is in the air.
Sing the songs of Christmas sounding every where.
